

## LOOK AT OUR CAPABILITIES

JH Robotics has more than 30 years of Automation and Robotics experience. We have provided Turnkey Systems for just about every kind of industrial application. Along the way we have gained valuable integration expertise ranging from Accumulators to Zone safety systems.

The following is a partial list of the types of equipment we have manufactured or integrated into our turnkey automation systems:

- |                                       |   |   |
|---------------------------------------|---|---|
| Accumulators                          | Feeders (Vibe, Bowl, Conveyors)                                   | Press Systems (Servo, Forge, Hydraulic, Air/Oil, Pneumatic) |
| Assembly                              | Flask Assembly  | Prototyping   |
| Assembly with Adhesives               | Furnace (All Types) Load/Unload                                   | Robots  |
| Barcode Reading                       | Gantries  | Saws  |
| Bar Feeders                           | Gasket Dispensing   | Scales  |
| Battery Assembly                      | Gauging   | Screwdriving (Auto)   |
| Bearing Assembly                      | Grease Dispensing   | Servo Systems, Presses                                      |
| Boring Bars (Carbide) ACME TECH SMITH | Grinders (Mfg. or Load/Unload)                                    | Shears  |
| Bowl Feeders                          | Grippers  | Shrink Wrap   |
| Broaching Equipment                   | Heat Shrink Systems   | Sound Test Systems  |
| Buffing                               | Inspection (Automated)  | Spindles  |
| Check Weighing Systems                | Laser Marking   | Stamping  |
| CNC Milling (Load/Unload)             | Load/Unload (All Machines)  | Touch Screen HMI's  |
| CNC Turning (Load/Unload)             | Machining - Steel, SS, Brass & Plastic (Contract—CNC Mill & Turn) | Tubing Assembly   |
| Compaction Presses (Unload)           | Marking Equipment (Turnkey)                                       | Ultra Sonic Cleaning  |
| Conveyors (Custom or Standard)        | Measurement Probes (Turnkey)                                      | Ultra Sonic Welding   |
| De-Burring                            | Molding Machines (Load/Unload)                                    | Vibration Analysis  |
| De-Flashing                           | Packaging & Packaging Systems                                     | Vision  |
| Dispensers                            | Paint Systems   | Washer Systems  |
| Drilling (Auto)                       | Palletizing/Depalletizing   | Wheel Handling  |
| EDM Machines (Load/Unload)            | Plasma Cleaning   | Wind Energy   |
| Electrical Enclosures                 | PLC (All Brands & with Software)                                  | Zone Safety Systems   |
| Electronic Connector Assembly         | Polishing   |   |
| Fastening (Screwdriving, etc.)        |   |   |
